

4<sup>th</sup> August 2022

Dear Industry Colleague,

**Please note, the following message has been sent on behalf of National Grid Gas Transmission:**

In accordance with our Gas Transporter Licence Special Condition 9.13 Part E, of our GT Licence, a new NTS Entry point as detailed below has been added to the Zero Licence Baseline Entry Capacity Table.

This table can be found on the Long Term summary report here:

Entry Report: <http://mip-prd-web.azurewebsites.net/EntryCapacityAuctions/Index> (Publication Type: Long Term Summary/Summary Report)

Site Type	Storage Site
Site Name	Rough Storage
Baseline (Gwh/d)	0

Please note that a consultation under EU regulations regarding Relevant Point classification for this new point will commence in future under a separate notice as required.

If you have any questions regarding the above, please contact Nicola Lond at [Nicola.j.lond@nationalgrid.com](mailto:Nicola.j.lond@nationalgrid.com)

Kind Regards,  
Nic
