

Seasonal and quarter forecast gas volumes

This document contains the seasonal and quarter forecast gas volumes calculated for 2023/24 for the NTS Shrinkage Incentive.

These volumes are calculated in line with the Gas Volume Methodology published in March 2023, and used in the calculation of benchmark costs for reporting performance.

The table below shows the timetable for publication of volumes, and the values calculated to date. This document will be updated in line with this timetable.

| Season | Covers | Published | Value |
|----------------|------------------------------|----------------|---------|
| Summer 2023 | April 2023 – September 2023 | September 2022 | 883 GWh |
| Winter 2023/24 | October 2023 – March 2024 | March 2023 | 637 GWh |
| Quarter | Covers | Published | Value |
| Q2 23 | April 2023 – June 2023 | December 2022 | 636 GWh |
| Q3 23 | July 2023 – September 2023 | March 2023 | 677 GWh |
| Q4 23 | October 2023 – December 2023 | June 2023 | 790 GWh |
| Q1 24 | January 2024 – March 2024 | September 2023 | |
