15th May 2009

Dear Eddie,

RE: NTS GCM 17: QSEC New ASEP NTS Entry Capacity P0 Pricing

E.ON UK supports this proposal. We do not disagree with National Grid NTS “*that for new entry points, the P0 price within the QSEC price stack should be calculated consistently with the P0 price for all existing entry points.*” This would seem to be consistent with the regulatory principles of eliminating undue discrimination and removing a potential cross-subsidy.

We have no objection to the arrangements being implemented with effect from 1st July 2009 and hence apply to any QSEC auction held thereafter; provided at least the minimum required notice period for change is provided to Users.

Yours sincerely

Richard Fairholme (by email)
