

Notice of MSEC and DSEC Reserve Prices for Capacity used from 1 October 2008

(Issued 4 July 2008)

National Grid is publishing this notice of revised transmission charges two months in advance of the RMTTSEC auction of system entry capacity, consistent with our Licence and Uniform Network Code obligations.

Below is an update to Table 2 of the NTS Gas Transportation Charges Statement dated 1 April 2008. (The changes are shown in bold text.)

This change reflects the revised system entry capacity reserve prices. It should be noted that the system entry capacity (RMTTSEC and DSEC), purchased during September 2008 for use from 1 October 2008, will be subject to the appropriate revised reserve prices. All prices have been calculated using the maximum available quantity of obligated NTS SO Baseline entry capacity levels as specified in the NTS Licence.

National Grid will shortly be publishing a separate notice that will give two months advanced notice of the next auction of Quarterly System Entry Capacity (QSEC) Step Prices along with the revised reserve prices for the AMSEC auctions.

The full Transportation Charges Statement can be found on our website under Gas Charging/Methodology and Charging Statements.

If you have any questions relating to this notice, or NTS charges in general, please contact the Transmission Charging & Revenue team on 01926 654633.

Table 2 Entry Capacity Reserve Prices for Capacity for use from 1 October 2008

MSEC Reserve Prices, Pence per kWh per day

Entry Point	from 1 Oct 07 to 30 Sep 08	from 1 Oct 08 to 30 Sep 09
Coastal Terminals & LNG Importation		
Bacton	0.0060	0.0072
