20th December 2010

Dear Colleagues,

Charges from 1st April 2011

Agreement (Alternative) and General Conditions of Contract for the Provision and Maintenance of New/Replacement Metering Equipment.

In accordance with the terms set out in the above Agreement, I attach schedules showing National Grid's revised metering charges that will become effective from 1st April 2011. These schedules include tables from the Agreements that have been reproduced and updated to include the annual adjustment of prices in accordance with RPI as set out in the Agreements.

In general, the revised rental charges effective from 1st April 2011 incorporate a pricing increase of 4.7% in respect of inflation (RPI). As a result of this adjustment the rental charges for credit meters are £9.36 per annum for a new meter and £13.77 per annum for a replacement meter. The rental charges for prepayment meters change to £29.74 per annum for a new meter and £35.63 for a replacement meter.

Please note that February 2012 is a leap year. The daily rental charges for 2011/12 have therefore been adjusted accordingly (i.e. annual charges are divided by 366 days to derive the daily charges).

The revised charges will be displayed on National Grid's Internet site (<http://www.nationalgrid.com/uk/metering>) by 31st December 2010. If you have any questions about the new charges please send an email to metcom@uk.ngrid.com for the attention of Stewart Love.

Yours sincerely,

Vivienne Bracken

Vivienne Bracken
Director, National Grid Metering

Updates of Charges published on National Grid's Metering Website (<http://www.nationalgrid.com/uk/metering>) and tables in the Agreements
