

Secondary Capacity Access to Iberdrola Generación SAU's LNG Regasification Capacity in Phase 3 of the Isle of Grain LNG Terminal

Iberdrola Generación, SAU (**Iberdrola**) holds capacity in Phase 3 of the Isle of Grain LNG Terminal in Kent (the **Terminal**). Iberdrola offers unused Berthing Slots, together with related storage and send-out capacity, on a secondary capacity basis on the terms and subject to the conditions of Iberdrola's secondary capacity documents described below.

Access to the Terminal is awarded following an auction, with the services provided to the secondary capacity holder on a tolling basis.

The secondary capacity documents include:

1. a **Confidentiality Agreement**, which must be signed and the documentation fee paid before the applicant can receive the Auction User Guide;
2. an **Auction User Guide** which sets out the qualification process to participate in an auction and the process that will be followed for each auction; and
3. a **Master Tolling Agreement** which sets out the terms and conditions on which the actual secondary capacity tolling services are to be provided.

In order to commence the process of becoming able to participate in auctions, an applicant must sign our **Confidentiality Agreement** which can be obtained by submitting a request to uklngops@iberdrola.es.
