

New domestic gas service application form

Please ensure you have read the 'Step by Step Guide before completing this application form.

Please complete this application in full including all minimum information to avoid delays in providing your quotation.

Please note:

1. The customer must request the gas meter from their chosen Gas Supplier who may make a charge for arranging the meter installation.
2. National Grid Gas **does not** provide or install meters for new domestic gas service works.
3. National Grid Gas **will not** lay service pipe inside the fabric of the building including under floors or walls.
4. The service pipe will terminate on the front of the property (as viewed from the public road or footpath) or up to 2 metres along the side. It can terminate inside the building above floor level or outside the building in a meter box on an external wall.
5. You must obtain the necessary consent if the new service pipe or the meter box position encroaches on third party or shared ownership land.
