National Grid Transmission Network Service - Commercial Frameworks (Gas)

February 2014

National Grid's UK Operating Model

- In 2013 National Grid (NG) launched its new UK operating model (UKOM) designed to help prepare for the following eight years under RIIO-T1. UKOM enables NG to address external challenges, such as needing to provide greater transparency and assurance that NG is acting in the best interest of customers at all times.
- In order to facilitate UKOM, the NG NTS Commercial Frameworks (Gas) Department has been subdivided into four teams with roles as follows:
 - EU Policy accountable for managing our external face in Europe, and for ensuring that our EU obligations are met, including the successful implementation of EU codes
 - Commercial Strategy accountable for working closely with our Stakeholders to develop the EU and GB commercial framework. The team aims to respond in a timely manner to stakeholder proposals and policy issues
 - Markets and Balancing Development accountable for the development of Daily Operational and Energy Balancing related UNC changes
 - Charging & Capacity Development accountable for the development of EU and GB Transportation Charging & Network Access related UNC changes

EU Policy & Commercial Strategy teams

Head of Commercial Frameworks - Gas

Commercial Strategy Manager Ritchard Hewitt 01926 655861 ritchard.hewitt@nationalgrid.com

Accountable for the development of GB and EU commercial strategy and lead on significant legislative and Commercial Framework changes

Helen Campbell 01926 653 296 helen.campbell@nationalgrid.com

Accountable for developing and maintaining the gas market rules, both nationally and on a European scale, and for NGG's input into the EU and GB industry codes that govern its activities as System Operator of the NTS

EU Policy Manager

Chris Logue 01926 656733 chris.logue@nationalgrid.com

Accountable for managing NGG's external face in Europe, and for ensuring that our EU obligations are met, including the successful implementation of EU codes

Commercial Policy Development Manager

Malcolm Arthur 01926 654909

malcolm.arthur@nation algrid.com

GB regime commercial and regulatory strategy and working closely with our stakeholders to identify and develop large scale regime change as a result of emerging legislation and policy

Customer Policy Development Manager

Mike Wassell 01926 654167

mike.j.wassell@nationalgrid.co

Close working with customers to identify up coming GB framework change requirements and delivering timely resolution of customer driven regime changes as a result of emerging legislation and/or customer requirements

Senior Commercial Analysts - Strategy & Policy

Claire Thorneywork 01926 656383

Claire.I.thorneywork@national grid.com

Dennis Rachwal (from March 2014) 01926 654235

dennis.rachwal@nationalgrid.c

Development of commercial strategy and change proposals for GB / EU Code and Licence frameworks

Commercial Analyst -Strategy & Policy

Laura Mason 01926 656397

laura.mason@nationalgrid.c

Development and delivery of commercial strategy and policy and detailed change proposals for GB / EU Code and Licence frameworks

EU Policy Advisor

Michael Jenner (From March 2014)

Point of contact for customers and stakeholders on EU gas commercial regime issues and working with them in developing EU related commercial strategy

Markets & Balancing Development team

Head of Commercial Frameworks - Gas

Helen Campbell 01926 653 296

helen.campbell@nationalgrid.com

Accountable for developing and maintaining the gas market rules, both nationally and on a European scale, and for NGG's input into the EU and GB industry codes that govern its activities as System Operator of the NTS

Markets & Balancing Development Manager

Mike Thorne 01926 656382

mike.thorne@nationalgrid.com

Accountable for GB and EU commercial changes related to gas markets, balancing and technical issues in UNC and EU network codes

EU Code Development Manager

Chris Shanley 01926 656251

chris.shanley@national grid.com

Balancing and markets related EU network codes, e.g. Balancing (BAL) code, changes to the Gas Day arising from the Capacity Allocation Mechanism (CAM) code

Balancing Code Development Manager

Darren Lond 01926 653493

darren.lond@nationalg rid.com

Balancing and markets related UNC developments, including the security of supply Significant Code Review (SCR)

Technical Code Development Manager

Phil Hobbins 01926 653432

philip.hobbins@nationalgrid.com

Technical issues relating to the UNC and EU network codes, e.g. EU Interoperability (INT) code, gas quality

Senior Commercial Analysts

Hayley Burden 01926 656972

hayley.burden@nationalgrid.com
Gas day changes

Phil Lucas 01926 653546

phil.lucas@nationalgrid.com

Balancing and SCR changes

Debbie Brace (from April 2014) deborah.brace@nationalgrid.com

Commercial Analysts

Martin Connor 01926 653842

martin.connor@nationa Igrid.com

EU Interoperability
Code implementation

Mark Lyndon 01926 655551

mark.j.lyndon@nationa lgrid.com

Charging & Capacity Development team

Head of Commercial Frameworks - Gas

Helen Campbell 01926 653 296

helen.campbell@nationalgrid.com

Accountable for developing and maintaining the gas market rules, both nationally and on a European scale, and for NGG's input into the EU and GB industry codes that govern its activities as System Operator of the NTS

Charging & Capacity Development Manager

Steve Fisher 01926 653428

steve.r.fisher@nationalgrid.com

Accountable for development of EU and GB Charging and Capacity related UNC development and Transportation tariff setting

Capacity Development Manager

Fergus Healy 01926 656251

fergus.healy@nationalgrid.com

End to end development and implementation of the GB capacity regime and the respective Capacity Methodology Statements

EU Code Development Manager

Matthew Hatch 01926 655893

matthew.hatch@n ationalgrid.com

End to end development and implementation of the EU CAM code

EU Code Development Manager

Colin Hamilton 01926 653423

colin.j.hamilton @nationalgrid.c om

End to end development and implementation of the EU Tariff and Incremental capacity codes

Charging Development Manager

Colin Williams 01926 655916

colin.williams@nationalgri
d.com

End to end development and implementation of the GB Transmission Charging regime change and production of the Transmission charges

Senior Revenue Analyst

Karin Elmhirst 01926 655540

karin.elmhirst@ nationalgrid.co m

Calculating and communicating gas Transmission tariffs

Senior Commercial Analysts

Sarah Lloyd 01926 654246

sarah.lloyd@na tionalgrid.com

Development of Capacity methodology statements

Malcolm Montgomery (from March 2014) 01926 653991 malcolm.montg omery@nation algrid.com

EU CAM code implementation

Commercial Analysts

Lesley Ramsey 01926 654048

lesley.ramsey@nationalgr id.com

CAM Code implementation

Laura Butterfield 01926 656160

Laura.butterfield@nation algrid.com

Supporting the production of Transmission charges and development of the charging regime
