Market Information Provision Initiative (MIPI) Update
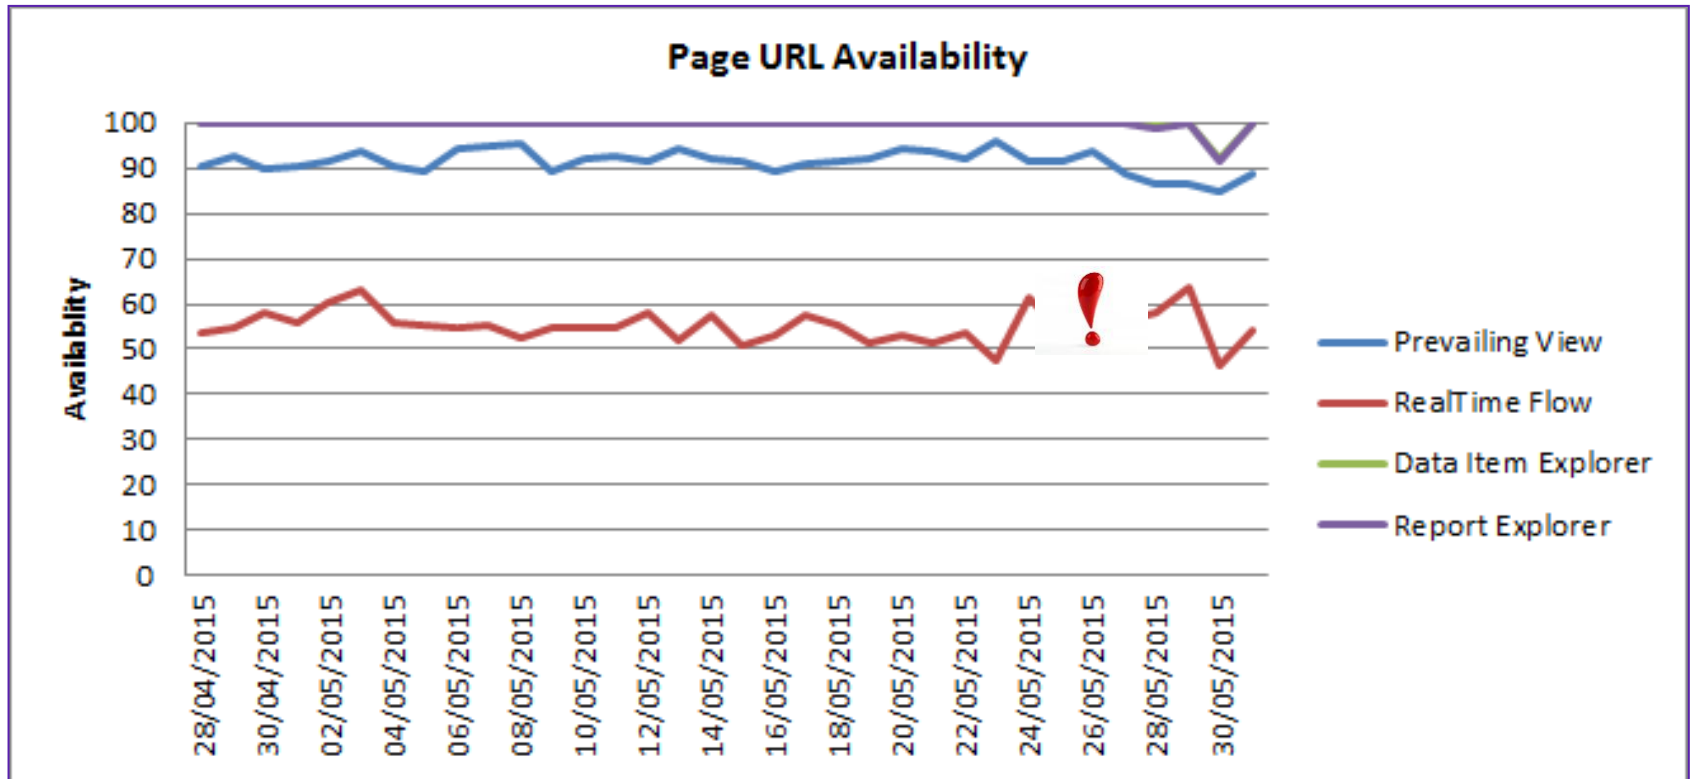

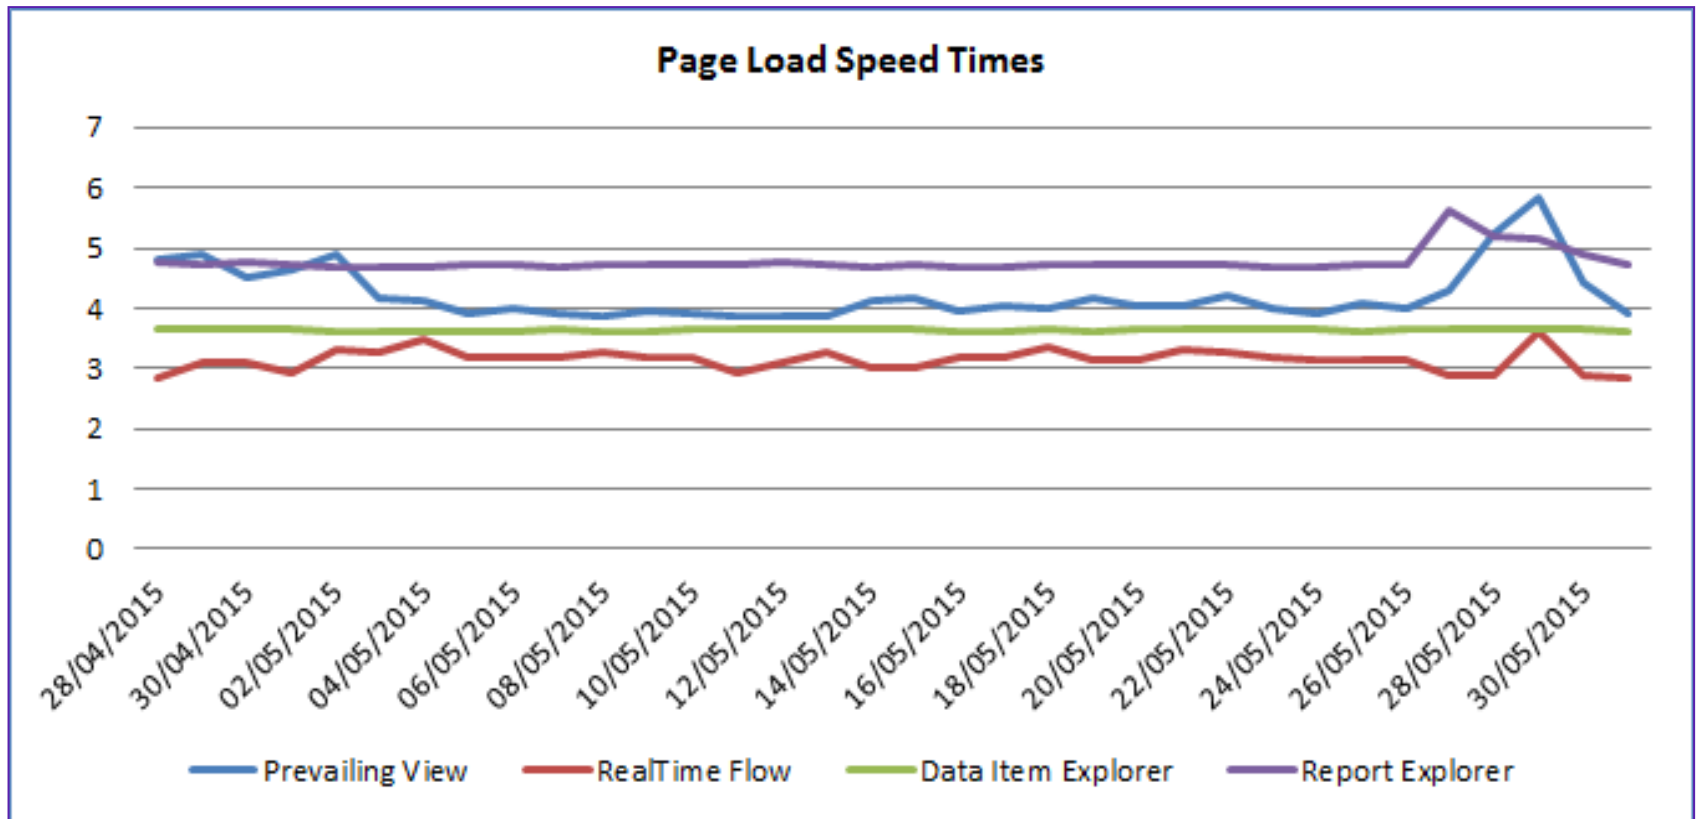

Update

- Overall performance (availability of pages and timeliness of data publication) is positive.

- We continue with our routine system maintenance activities to ensure system health;

  - Successful database and server work in May/June.

  - Repair to graph on Instantaneous Flows page (date TBC)

- Overview of planned work is available on the Operational Data homepage:

  - http://www2.nationalgrid.com/uk/industry-information/gas-transmission-operational-data/

Page Availability

Page URL Availability

- Prevailing View
- RealTime Flow
- Data Item Explorer
- Report Explorer

■ Real Time Flow availability is affected by an issue with one graph. Work is being scheduled to fix this.

Page Load Speeds

Page Load Speed Times
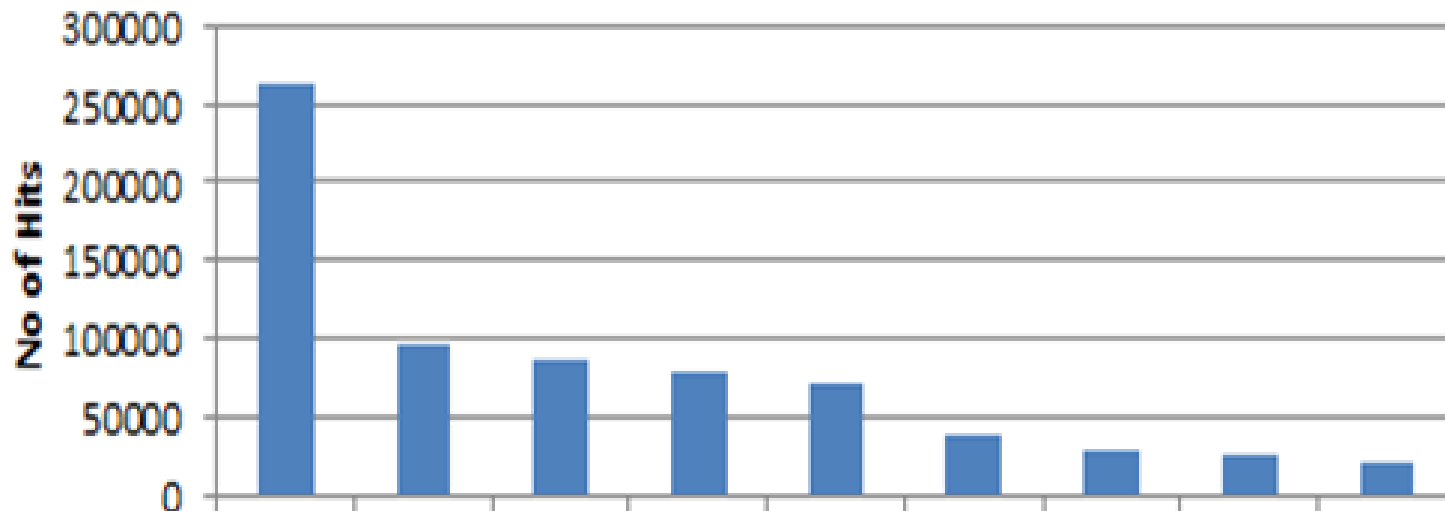

- Average historic page load speed used to be ~10 seconds.

API

- API usage continues to be a contributing factor to overall site load.

- Latest statistics show a rise in hits, which is being addressed.

Top 10 MIPI Hitters - 18th - 24th May

EU Project

- New EU regulations demand new reporting requirements from 1st October and 1st November 2015.

- New 'EU 2015 Project' section on website to keep you updated with these changes;

    - Planned work

    - New data

    - Changes to API

http://www2.nationalgrid.com/uk/industry-information/gas-transmission-operational-data/supporting-information/

EU Project – Imminent Changes

- A number of new data items will be released into the Data Item Explorer application.

- These will be empty until the data flow commences in November.

- The data items will be released in phases (final dates tbc)

- NO action is required from users at this stage.

- Updates on dates (when confirmed) will be provided via the Supporting Information web page
