

# Winter Review and Consultation Report to be published on the 1<sup>st</sup> July

## Our annual Winter Review and Consultation Report has two aims:

- 1) To review of security of supply over the previous winter
  - Gas demand
  - Gas supply
  - Operational issues
- 2) To gather market intelligence from across industry
  - It asks you a series of questions about the coming winter
  - We use the responses to inform our analysis for the Winter Outlook Report, published in October

**Your feedback is valuable to ensure that our Winter Outlook Report is based on a wide range of expert industry views.**

**Please take the time to respond to our consultation. You can register for our mailing list to receive the report when it is published at:**
