

MIPI Performance Stats

High-level Overview – November 2015

Weekly Update –

We've seen a spike in hitters this week although no issues have been experienced. Investigations have identified the top hitter and this is being closely monitored on a daily basis.

- Performance since (last 3 days) has been stable. Alerting in this area is due to be in place over the next week

The MIPI change freeze is planned for 14th December to 4th January.
