Introduction	3
Maintenance work by month	4

Introduction

National Grid has produced a draft version of the National Transmission System (NTS) Maintenance programme to provide customers with information on NTS Maintenance that has an impact on entry or exit capacity, currently scheduled for 2014.

This document covers work scheduled at compressor stations and on National Transmission System (NTS) pipelines impacting NTS exit points and Aggregate System Entry Points (ASEPs).

We work closely with our customers to ensure minimum impact to supply and endeavour to meet our firm exit obligations. Where NTS System Exit Points are affected, we will issue Maintenance Day notices to our customers at least 30 days in advance of the scheduled Maintenance work.

This document only includes maintenance activities on the NTS, which are to be undertaken by National Grid NTS. It does not include maintenance carried out upstream of the NTS by Delivery Facility Operators (DFO's) / Producers or downstream of the NTS by the Distribution Networks.

If you have any queries or questions regarding the information contained within this document, please contact Tony Hanaphy, National Grid, Gas Operations, National Grid House, Gallows Hill, Warwick, CV34 6DA (Tel: 01926 655057).

We would welcome any feedback from you in relation to the information provided, if you would like to provide feedback please contact us via email on Box.gasops.ntsmaint@nationalgrid.com

April 2014

Compressor Station Outages	Dates	Maintenance Description
Bishop Auckland	Apr	Routine Maintenance
Aylesbury	Apr	Routine Maintenance
Diss	Apr – May	Governor Replacement

In Line Inspections	Dates	Maintenance Description
Fdr 10 – St Fergus to Aberdeen	Apr	In Line Inspection
Fdr 21 – Treales to Burscough	Apr	In Line Inspection

May 2014

Compressor Station Outages	Dates	Maintenance Description
Aberdeen	May - Jun	Control System Replacement
Moffat	May – Jun	Control System Replacement
Warrington	May	Routine Maintenance
Aylesbury	Apr - May	Routine Maintenance
Diss	Apr – May	Governor Replacement
Cambridge	Apr - May	Routine Maintenance
