

Incremental Entry Capacity Release Methodology Statement Consultation Conclusions Report

04TH November 2011

Executive Summary

Introduction

Special Condition C15 of National Grid Gas' ("National Grid") Gas Transporter Licence in respect of the NTS (the "Licence") sets out obligations to prepare and submit for approval by the Authority an incremental entry capacity release methodology statement ("IECR") setting out the methodology by which National Grid will determine whether to allocate incremental entry capacity. In addition, National Grid is obliged to review the statement on an annual basis in consultation with gas shippers and other interested persons.

On 23rd September 2011 National Grid invited views in respect of the proposed revisions to the IECR to be made by 28th October 2011.

This document sets out National Grid's conclusions on its consultation on the proposed IECR. It provides a summary of the representations received, National Grid's response, and an indication of whether changes have been made to the proposed statement.

Responses

No representations were received.

Party	Issue	Response Quotes	National Grid Response	Proposed changes
1- No issues have been raised.				
				No changes proposed

Summary

As no concerns have been raised by consulted parties National Grid is not proposing any amendments to the IECR in excess of those proposed within the consultation, which are detailed in the consultation cover letter.
