Dear Mr McKenna,

The National Grid Gas PLC (Western Gas
Networks Project) Compulsory Purchase
Order 2022.

I know you will see this objection as
nothing more than a pain in the neck in
your pushing this scheme through, however,
it is important to me.

I own land at what was known as
Rainbow Farm, which is now known as
Mollys Farm off the road known as
Badsey Lane, Willersey. I acquired the
land as an investment & for my pension.

I have had one meeting with the land agent
fisher German & a number of telephone
calls. However, no progress was made
as it appears to me that National Grid
has their project and are not prepared
to discuss it. Also they appear to want
to dictate the level of compensation they
are willing to pay, regardless.

In objecting to the Scheme proposed by National Grid, my grounds of objection are:

- 1) I don't believe National Grid have properly considered alternative options for the scheme.
- 2) I don't believe National Grid have considered how the correct level of compensation should be calculated and are dictating what compensation they will pay.
- 3) Given the current 'energy crisis' National Grid are able to determine what level of energy is required in the Country as they appear not to have been competent in assessing need given the proposed "blackouts" for 2023.

All I am asking is to be given an opportunity to voice my objections in public, as I don't have any confidence in National Grid that they will treat me fairly once they have their order.

If this is a democracy in which we live then I feel my voice should be heard and that a \$6 billion company should not be able to do what it wants just to allow it to pay directors & shareholders additional dividends.

Please respect my rights as a human being & land owner and give me the opportunity at a public hearing.

I look forward to hearing from you.

Yours sincerely

Joe Mills

* For information, I was not given the full 28 days objection period.
