

# Gas Demand Side Response

Annual Report

April 2023

## DSR Annual Report 2022/23

In line with our UNC obligation in the Transportation Principal Document section D5.2.1, below are the number of DSR Market Offers that were posted onto the On-the-Day Commodity Market (OCM) between 01 April 2022 and 31 March 2023.

There was sufficient gas available to meet demand over the period, hence no Margins Notices or Gas Balancing Notifications were issued and therefore the gas DSR market was not required. Therefore, no DSR Market Offers were placed on the OCM.

### Gas DSR Offers

Month	Number of Offers	Volume (Therms/Day)	Price Min	Price Max
0	0	0	0	0

### Gas DSR Trades

Month	Number of Trades	Volume (Therms/Day)
0	0	0
