DSR Annual Report 2021-22

As per our UNC obligation TPD Section D 5.2.1, below are the number of Gas DSR Offers and Trades made on the On-the-day Commodity Market (OCM) over the 2021/22 Winter period.

There was sufficient gas supply available to meet gas demands this winter and no Gas Balancing Notifications were issued; therefore the Gas DSR service has not been required. As such, no Gas DSR Trades or Offers were placed on the OCM.

Gas DSR Offers

Month	Number of Offers	Volume (Therms/Day)	Price Min	Price Max
0	0	0	0	0

Gas DSR Trades

Month	Number of Trades	Volume (Therms/Day)
0	0	0

How you can get involved

Gas DSR was implemented in October 2016 after 2 years of development with the gas industry. We have developed information resources to help provide further education on the scheme and how to get involved. We hope you find these useful, but you can contact us if you have any further questions about the framework.

Gas DSR Brochure

A useful guide for anyone new to the scheme. Provides an overview of what gas DSR is and its purpose. It demonstrates how gas DSR works and can be used by explaining who is eligible to take part and how you can get involved.

Gas DSR Methodology Consultation

Every two years we invite you to share your views on the current Gas DSR Methodology. This public consultation is run in accordance with Special Condition 9.22 of our Gas Transporter Licence. The latest version of our methodology can be found on our Gas DSR homepage at <https://www.nationalgridgas.com/balancing/demand-side-response-dsr>

If you have any questions or comments about Gas DSR please contact us at Box.OperationalLiaison@nationalgrid.com
