Introduction

This report concerns the annual review of T/PM/E/1.

The version of the T/PM/E/1 subjected to review was version 9.1. That version of the T/PM/E/1 was accepted by the E3 Alignment group in May 2020 following general non-material textural changes to the existing T/PM/E/1.

The review of version 9.1 of the T/PM/E/1 was completed during April 2021 by the Safety, Response and Assurance Team at National Grid.

Review of T/PM/E/1

The review of version 9.1 of the T/PM/E/1 identified a number of areas where amendments to T/PM/E/1 were required. These are described in the following table.

| Section of T/PM/E/1 requiring amendment | T/PM/E/1 section | Description of required amendment |
|--|--------------------------|--|
| Throughout Document | Administerial | Minor grammatical corrections throughout Document |
| Foreword | Contact details | Contact details should further information be required added |
| Figure 2 | Linked Plans | T/PM/E/1 added to illustration |
| Figure 3 | The Network | Updated to include the addition of a BIO Methane site to the Network Entry Facilities and the removal of Theddlethorpe, which has now been decommissioned. Change to title of European interconnector to read 'IUK'. Title of 'Milford Haven' removed to reference 'South Hook' and 'Dragon', the two separate terminals located at Milford Haven. Recognition of the future decommissioning of Holehouse Farm storage site. |
| Section 2.1 | Primary System | Location of GNCC removed for security |
| Section 3.1 | Network Entry Facilities | Reference to Bio Methane Production Facilities added |
| Section 3.3 | Bio Methane Facilities | Section added to reflect Bio Methane Facilities connected to the NTS |
| Section 3.4 | Gas Storage Facilities | Change of wording, 'import' changed to 'injection' and 'export' to 'withdrawal' to align with industry terminology. |
| Section 3.6 | Interconnectors | Interconnector titles updated. |

Results of T/PM/E/1

The amendments to version 9.1 of T/PM/E/1 identified during the review were assessed to be non-material changes to T/PM/E/1. These amendments shall be incorporated into version 10.0 of T/PM/E/1 which will be issued in May 2021.
