

National Grid Stakeholder Group – Statement of Intent

National Grid believes in becoming a stakeholder led business. We will demonstrate our commitment to the stakeholder group(s) through our openness and willingness to update our business plans to reflect your views. We will:

- Engage constructively and transparently with the stakeholder group;
- Be open about issues, showing our weaker areas as well as areas of strength;
- Provide timely and relevant information to the stakeholder group to enable it to discharge its terms of reference;
- Respond to challenges raised by the stakeholder group, providing clear explanation and rationale;
- Be clear where we agree and disagree and why;
- Provide access to senior management including NGET/NGG Board members;
- Provide timely and sufficient support for the Chair in the running of the stakeholder group and any additional meetings with Ofgem and the RIIO2 Challenge Group.

Signed:

David Wright, Director of Electricity Transmission
